MEMORANDUM FOR: Director of Security

SUBJECT : Facility Access Approval Program

REFERENCE : DD/A 74-3920, Memo from D/OS to DD/A,  
dtd 7 October 1974, Same Subject

Charlie:

1. I obviously cannot take exception to your enforcement of decent security standards. I am somewhat concerned, however, as the matter pertains to the GSA char force and maintenance personnel that there will be a decrease in this work population because of enforcement of these standards. I am sending a copy of your memorandum, along with these words, to Mike Malanick and asking him to render me on 1 January 1975 a status report on the level of GSA staffing of char and maintenance positions in this building, as opposed to the number that were on duty 1 October 1974. This is the only way to get a comparative handle on this problem.

2. As it pertains to paragraph 4, are you speaking only of GSA personnel? It is my understanding that the char and maintenance employees used in our commercially-leased buildings are not government employees but are provided for by the building management. I believe your turn-over problem there is going to be even worse than it is with government employees.

3. I am again asking Mike to do the same as it pertains to paragraph 6 concerning GSI cafeteria employees; I would like to know the number of employees on duty 1 October 1974 and 1 January 1975.
